The Waters Pierce Oil Co. sells two grades of oil in this city—one good, and the other not so good. Some of the dealers are in the habit of mixing this oil and selling it for the best. This is unfair to the oil company and unfair to the consumer of the oil. It does not give the light, and it costs the consumer the price of the high grade of oil when he does not get that grade. When you go for coal oil call for the best and insist on having what you call for.

People here from Poplar Bluff never tire of boasting about the wonders of their little city. Of course some of them overdo "the thing," but it is all right of them to boost their town; they would not be good citizens if they did otherwise.
